To promote collaborative research between TGSW visitors, URA organize a poster exhibition in which presenters anonymously post their own research skills, research topics, and/or hurdles to overcome in a three-questions format.

On the day of TGSW2017, the answers of “three-questions” from all participants will be posted at the Conference Room 404. If you visit our venue, we will give you Post-it and you can post comments on other participants’ “three-questions” and you can reply comments from other participants’ comments on your “three-questions.”

Those comments will be posted anonymously throughout three days of TGSW2017. When both a presenter and a commentator agreed on identifying themselves, an organizer will mediate them for a possible future collaboration. Join us!
