

The Second Tsukuba – Bonn Medical Exchange Visit and University of Bonn – Japan Forum

Prof. Baur, General Manager of the Faculty of Medicine, Univ. of Bonn, giving a presentation.

On the first day, 16 researchers from the Univ. of Tsukuba and Univ. of Bonn made presentations and engaged in lively discussion at the Life and Medical Sciences Institute.

On the second day, the delegation visited each clinical unit, such as neurosurgery, etc., and had fulfilling research and clinical training exchanges, including surgery observation.

Pictured on the right is Prof. Tanaka, taking questions from Bonn delegates.

The Univ. of Bonn – Japan Forum was held at the Life & Medical Sciences Institute on February 19th. About 50 participants took part in the forum, including German researchers from not only the medical field, but various faculties, with an interest in Japan, in addition to Japanese researchers working at the Univ. of Bonn.

Lively discussions on bilateral exchange colored Prof. Matsumura's presentation.
