

The informative meeting for the exchange students from Uni Bonn

On July 3, 2013 an informative meeting for the exchange students from the University of Bonn was held in the North building of the DAAD where our office is located. Nine people took part in the meeting in total, including the exchange students which will start their stay in Tsukuba this fall semester, exchange students from Tsukuba and people affiliated with the Uni Bonn.

Uni Bonn teacher and Tsukuba graduate Dr. Tamura talked to the students about studying Japanese in Tsukuba. After that, a current doctoral exchange student from Tsukuba and doctoral student from Bonn, who did research in Tsukuba, informed the students about important basics concerning their stay in Tsukuba. The students listened closely and took notes.

Bonn exchange students having a pleasant chat

The exchange students asked a lot of questions about student life and classes in Tsukuba, thus a lively Q & A session was held. Thanks to this meeting, the Bonn office was able to inform the students about the University's outline and student life in Tsukuba before their stay in Japan. As a result, not only did that ease their anxiousness toward their stay, but also supported their start into a carefree student exchange.
