

May 30, 2012

Dear All,

The University of Tsukuba invites you to our exclusive Summer School 2012, which is held from July 23 to August 3. Our courses are specially designed to challenge graduate students to think critically by engaging in laboratory work and attending lectures. The courses provide participants with an invaluable opportunity to directly interact with our distinguished professors and allow you to develop greater understanding of cutting-edge research. You will also enhance your international perspective through cross-cultural communication with students from other countries.

We encourage you to apply for our program and join us for a great experience in Tsukuba this summer. We are looking forward to seeing you soon at the University of Tsukuba.

Yours truly,
