

筑波大学  
*University of Tsukuba*

May 14, 2013

Dear All,

University of Tsukuba would like to invite you to participate in our annual program “Summer School 2013” to be held from July 29 to August 9. This summer research program is specially designed for graduate students of medical sciences. The two-week intensive lectures and laboratory work will provide you with a window of opportunity to learn directly from our distinguished researchers and cultivate your expertise. This summer, we expect more than 30 students from several universities in Viet Nam, National Taiwan University, and newly joined Université Bordeaux Segalen in France. You will have an opportunity to share innovative ideas and diverse perspectives while initiating new friendships and connections.

We sincerely hope that you are interested in participating in our program at the University of Tsukuba this summer and look forward to receiving your applications.

Yours sincerely,

Koji Hisatake  
Organizer,  
Summer School 2013  
Professor,  
Faculty of Medicine, University of Tsukuba
